## Introduction

The 2024 Indian General Elections witnessed a significant political landscape across states and union territories (UTs). This report analyzes the election results focusing on seat distribution and party performances.

## Key Findings

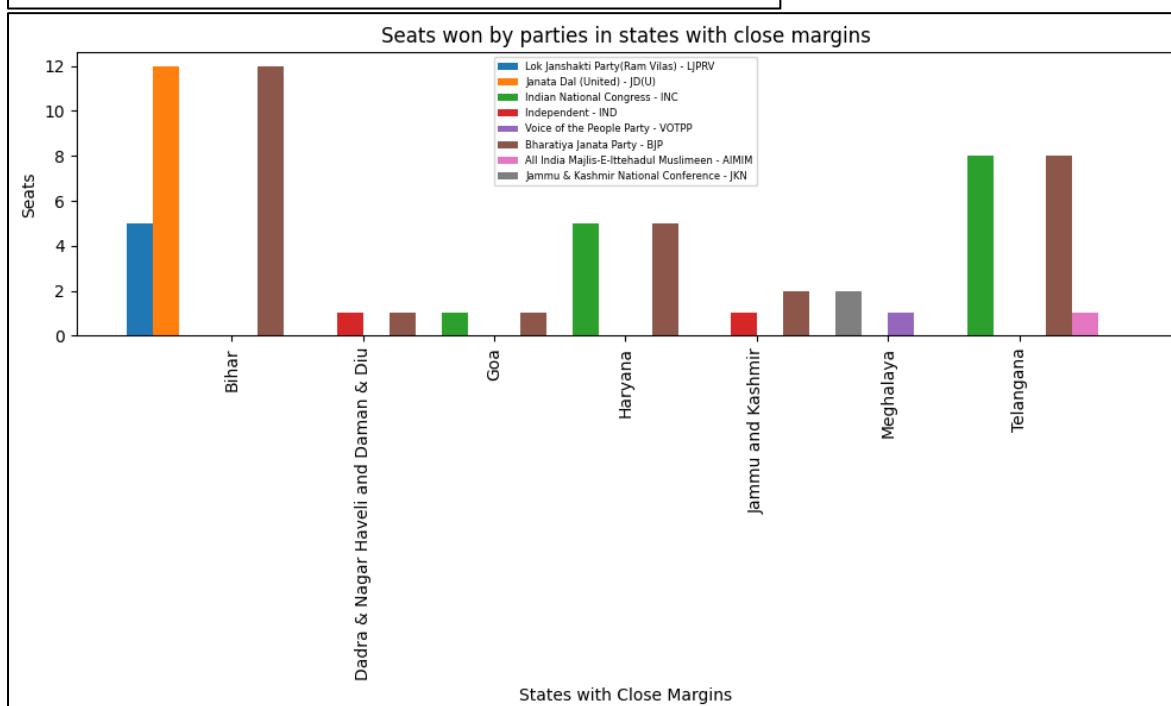

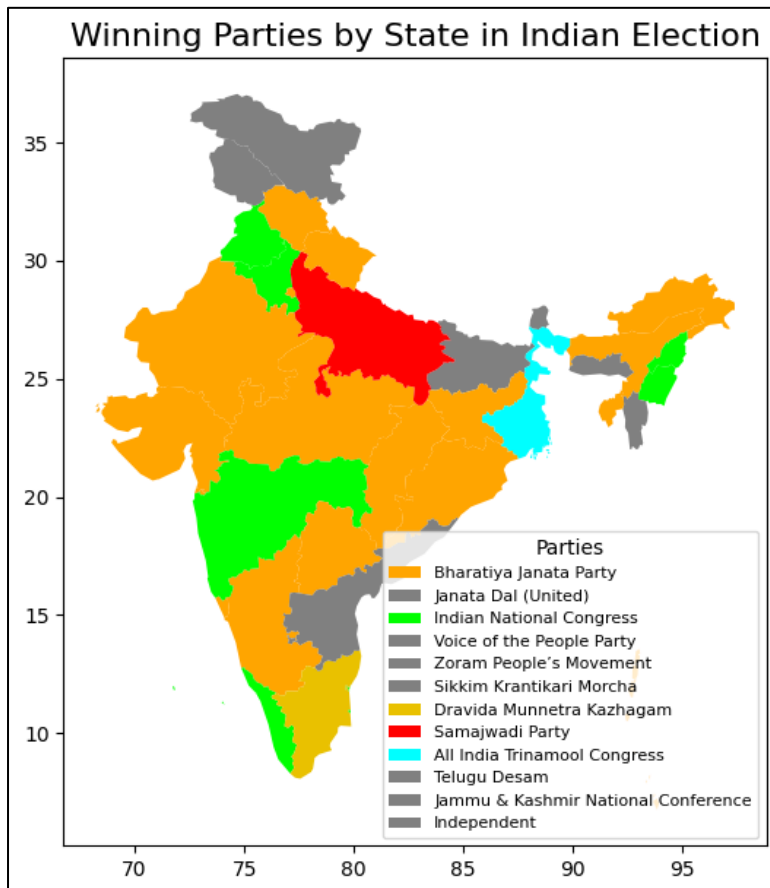

### National Overview

- Bharatiya Janata Party (BJP) emerged as a leading party nationwide, securing a total of 240 seats, which is although, lower than what they secured in the 2019 elections
- Indian National Congress (INC) followed with 99 seats, continuing as the opposition party.

## Statewise Overview

- Bharatiya Janata Party - BJP won in most of the states, despite suffering a loss in its stronghold state of Uttar Pradesh
- The election results in Bihar showed a close competition between Janata Dal (United) - JD(U) and Bharatiya Janata Party – BJP each securing 12 votes respectively.
- Dadra & Nagar Haveli, Daman & Diu, Goa, Haryana, Jammu and Kashmir, Meghalaya, Telangana, and others also witnessed closely contested seats among major parties with a margin of at most 3 seats.
- In Andhra Pradesh, Tamil Nadu, Uttar Pradesh the regional parties Telugu Desam – TD, Dravida Munnetra Kazhagam – DMK and Samajwadi Party – SP won by a large margin

## **Conclusion**

The 2024 Indian General Elections were characterized by a diverse political landscape with notable performances by major parties across various states and Union Territories. The analysis tells us the strongholds and weak spots of political parties and where regional parties succeed instead of national parties. The analysis underscores the importance of close-margin states in determining the overall election outcomes and reflects the electorate's preferences and voting patterns.
